Dear Parents/Carers,

It is normally at this time of year when you would be contacted and invited to sign up to a bumper evening of entertainment and thrills entitled “How to support your child with their Maths.”

You will also know that normality disappeared back in March and was recently replaced by the “new normal” and so we are unfortunately not able to invite parents into school for this event.

However, all is not lost! I am excited to embrace this “new normal” and I have put together my own video titled: **“How to support your child with their Maths learning from home.”**

This video is aimed specifically at parents/carers of children at the Priory School and outlines how easy it is to support your child with their Maths learning outside of school hours.

The video can be found on our school website here:

<https://priory.tpstrust.co.uk/life-at-school/curriculum/maths/>

It is the second video down on that page.

It’s run time is a little under 2% of a day and I can guarantee it will help you have a better understanding of the simple things you can do that will make a massive difference to supporting your child’s learning in Maths.

I do hope you find it useful.

If you would like to let me know how useful you found it or if there is anything else you would like further information about that I do not cover in this video then can you please let me know through the email [info@tpstrust.co.uk](mailto:info@tpstrust.co.uk).

Thank you so much for you continued support.

Yours sincerely,

Mr Tudor

Head of Maths  
The Priory School
