

# ART AND DESIGN

## 'LITERACY LAYER'

In all years students are expected to research an artist, a designer or an art movement

Much of the student's research is directed to recommended web-sites such as [npg.org](http://npg.org), [tate.org](http://tate.org) and [britishmuseum.org](http://britishmuseum.org)

It's important that they not only know what the artist creates but more significantly how and why they create it

Our school library is well stocked with books linked to our topics in KS3. There is also a good range of publications for GCSE students which cover a broad spectrum of art and craft specialists.

A deeper level of understanding enables students to be more autonomous and work at a higher level of creativity
